

Steven Benner tutored my son, Samin, a Junior in High School, from December 2007 through June 2008 in Algebra I, Algebra II and Trigonometry. Mr. Benner, was very flexible, coming to various locations as our needs dictated, sometimes, at a considerable distance from his home. He was always kind and patient with Samin and worked with him to understand concepts, many of which he had not really learned in previous years. On several occasions, Steven also helped with Science or SAT preparation, again, as needed. Mr. Benner was always honest, professional, a hard worker, and easy to get along with. If the need arises I would happily use him again, and I would definitely recommend him to any organization. He will be an asset wherever he goes.

Sincerely,

Sidney Mehrdady
